THE VARSITY "SOCCER" MATCH. The thirty-sixth inter-Varsity "soccer match inished up with a draw of I goal each, at Queen's Club, on Feb. 20th. which was just about what it should have

Playing against the sun, but with the wind, Oxford scored in the first five minutes, Sayer putting in a shot that Pink ham lad no carthly hope of stopping. Much of the credit of the goal belonged to Raynor, who made a smart run and centre. Squire equalised ten minutes later, after Appleton had saved a hot shot from Bache. After that, however, the game tailed off.

Oxford, on the whole, had the best of the first half, and Cambridge of the second. The game was tremendously fast, if not. bewilderingly clever, one side being in jeopardy one minute and attacking strongly the next. Both goal-kespers were axtremely fine, and one save of Appleton's in the second half-a renner in the lefthand corner-was up to any international

SCOTTISH LETTER.

(From Our Corn Correspondent ) EDINBUROH, March 5.

MOEWIGIAN CRANITE AT ROBYTH. At a meeting of the Town Council of use of foreign granite in the construction of the new Naval Base at Rosyth. industry was affected, and party ties were Free Trade Government. The condition of the "Granite City," as it is called is very bad; its trade is stagment; all its charities are taxed to the utmost and last year its pauperism was greater than in any other part of Scotland. Hundreds of unemployed men, skilled in their calling, are either standing idle or are ongaged on relief labour for which they ero not fitted, -labour which, in an economic sense, is as wasteful as the picking oakum. Many Aberdonians, too, have had to emigrate, and there are five hundred fewer granite workers in the district there were a few years ago. Yet when the Government had a contract to dispose of which required the very kind of labour which these men are perhaps better equipped to perform than any others in the

world, the order was given to foreign quarries. It cannot be said to be a question of principle with the Government. They gave away the principle in connection with Portsmouth Docks. An alternative tender quoting a lower price for foreign granite was put in, but a preference was given to Cornwall. Why, then, refuse to scotland what was granted to England? Or why prefer Norwegian granita to the product of Cornwall? And of course there are quarries in many other parts of 1,717 deaths from small-pox were recorded

It is said on behalf of the Government that the existing Scottish quarries could not supply the matterial, and that the TELEWOOD BEDROOM and DINING ROOM | element of time is important at Rosyth. These statements are easily met. There and seventy-three thousand in Bengal. are numerous deselict quarries in the North they could quickly be placed in order and at Rosyth for at least three years. > > PORPARSHIRE ELECTION.

Local circumstances are always potent factors in the determination of even the most important political controversies, and the local circumstances in the present series of the trial of Scottish by-elections are as diverse as deeply pondered pre-arrangement would possibly have made them. Forfarshire is mainly agricultural; the Border Burghs SKIN AND BLOOD DISEASES are purely industrial; Central Glasgow is a mixture of commercial and industrial; and South Edinburgh is half artizan and half amsing, you should test the value of Clarke's residential. Each of the four elections. therefore, represents a different section of opinion, and taken together they will give

a good idea of the trend of Scotland's position in political life. Forfarshire led the way at the polls, and Mr Falconer, an Edinburgh Writer to the Signet and a Scottish Radical leader, was returned at the top. He registered, how ever, 1,000 less of a majority than did the Government representative at the General Election,-a Pyrrhic victory. We are a still folk, and slow to change; but the Liberal vote was reduced by some 370, and the Unionist was increased by nearly 700.

The Land Question carried the election. The Scottish Small Holders' Bill o which the late member, Mr Sinclair,or Lord Pentland, as he ought now 1223 to be called, -was the indefatigable SCROPULA, champion, appealed forcibly to the SCURVY, agricultural labourers who form the bulk of the voters in the county. Under such BCZRMA, adverse circumstances, Mr Blackburn's BLOOD POISON, strenuous advocacy of Tariff Reform was ULCERS. foredoomed. The pre-occupation of the constituency was clearly with matters which SKIN & BLOOD no fiscal arguments could assail. Forfar, too, was perhaps the most favourable place. It is a safe and Permanent Remedy, in Scotland on which to take a stand in regard to Small Holdings, and the Liberals | Rheumatic Pains, for it removes the cause from candidly admit that they carried the day the Blood and Bones. on Land, and on Land slone.

It says that there came a "rebuff to Mr Redmond; Scottleh clectors resent the dictation of Nationalist leaders in London; and the result is a contradiction of the Irish claim that Scottish cities can bedominated at their will.

A FUNNELL-LESS CRUISER.

The keel of the first funnelless cruiser,

the Indefatigable, was laid down in the Devonport dockyard on February 23. She will be similar to the ships of the Invincible class. She will have two masts, but, spart from her gun turrets and bridges, her up. per deck will be as clear as that of a sailing ship of yore, with sails stowed away. The introduction of internal combustion engines. will enable funnels to be dispensed with.

The first-class cruisers of the Invincible class are really a new kind of fast battleships. They have a broadside fire equal to that of the Dreadnought, but have a speed of from 28 to 30 knots. The Invincible has made 29 knots.

San Cheong signalling for assistance and immediately went alongside and the passengers were transferred, the boat eventually being beached. The stern tube of the San Cheong was found to be badly damaged and the vessel was taking in

good deal of water. Captain A. C. Broadbridge states :- At 0.30 a.m., this morning, when two miles W. of Pillar Point, Castle Peak, I observed s.c. San Cheorg, Canton steamer, aground and asking for assistance. I went close up to her and Capt. McGinty reported that the steamer's stern tube was damaged, and the vessel was making a great deal of water, which at that moment was above the stoke hold plates. He reports having beached the steamer. I took all his passengers or board, transferring them in boats. arrived at Hongkong at 3.45. a.m.

The Chairman sald :- Gentlemen,-We now ky before you the report and secounts for 1809, copies of which have been in your hands for some time. I regret that we have to again come before you with a poor shewing for the year's work, but the same tale is being told by all shipping companies all over the world, and we cannot expect to be an exception. We all know that the trade of the world has shrunk in the last more than offset by increased espenses, as our coal bill, owing to the drop of say \$30,000 thus turning a profit on working last year of \$18,000 into aloss this year of \$12,000. But, as I said a twelve-

### NAME TROM THE HOMELAND.

Mr Bothe, speaking in Pretoria on the work of the National Convention, declared that if the Constitution were rejected the only alternative was disunion, which might involve bloodshed or the intervention of the Imperial Government. The earliest date for the election to the Central Parlisment would be 1911.

Mr Asquith recently informed a depute tion, which waited on him at the House Commons, on the subject of compulsory attendance at evening continuation schools up to the age of 17, and the reduction of the hours of labour up to the same age. that he hoped legislative proposals would soen be made.

Two German experts, Dr. Wagner and Herr von Radinger, declare that they have discovered a material which will superseds iren, steel, and aluminium in the multifacious purposes for which those metals are used. The new material is composed of paper, linen, and other textiles, and is said to be lighter than aluminism and more durable than steel. An airship after the Zeppelin model is to be constructed as a test of its efficiency.

The coal production of the world in 1007 reached the tremendous total of 1.000,000,000 tons, according to a Board of Trade return. Of this the United Ringdom produced rather more than onefourth. Japan is the sixth largest exporter of coal, the exports in, 1907 amounting to 1,922,000 tons, and imports to 18,000 tons

A snowstorm which began at the end February succeeded in covering the entire country to a depth varying from six to twelve inches. In some parts the fall was the biggest for ten years past. There was depth of three feet of snow on the East Yorkshire Wolds. Animated and picturesque scenes have been witnessed on the dopes of Hampstoad Heath, where toboganning and ski-ing were freely indulged in.

Mr W. H. Lever, M.P., recently out lined a scheme of co-partnership to the soap, workers at Port Sunlight whereby they will become shareholders to the extent of 2500,000. 1,130 employees will be entitled to a share in the first distribution.

There was - lively debate on 26th February at the "Gerrard-street Parliament," Scho, on the question of the Dining Salcon. abolition of trousers. Many experts assembled to hear Mr D. F. Vincent introduce the Bill which inflects a penalty not exceeding two years' imprisonment on all edult males who refuse to wear, instead of trousers, knee-breeches, knicker-bockers, kilts. some other form of dress." Mr Vincent's arguments were powerful and numerous :- Trousers gatherup millions of microbes by contact with mud; they are lacking in warmth; they are ugly; men wear breeches at Court; trousers have killed portraiture; Nelson on Trafalgarsquare is in braeches; Wellington at Waterloo were pantaloons; Scottish regi-ments wear kilts. Finally he urged that trousers had a great effect on character. From time immemorial breeches had constituted the ruling garment of the cultured classes, whereas the proletariat had to be content with trousers. The bill, after discussion, was rejected.

At an "At Home" held in the Scottish boom gave an address on The Dutch-Indian art of Batik and its application in Holland. Batik work, Mr Rooseboom explained, was the treatment of cotton on both sides with. war, to save the spaces thus covered from absorbing a colour which was applied by a subsequent colour bath. This art was very ancient one. The old Egyptians must have known it. Now it was only worked in Java; in his view the productions were very suitable for the Indian climate. The material was light, and did not crease. The colours were extremely fast, and could be washed ad infinitum. The colours mostly used were indigo, blue and brown. The process was now applied in Holland for working on silk, volvet, and vellum, and it was being carried into German art schools by expert Dutch teachers. The future of Batik work in Europe, in his opinion, was in its association with vellum. The most beautiful and strong bookbindings could be made with lasting colour effects, and is Holland it was also used for decorating charters and important MSS.

### RAMBLING NOTES.

I suppose that if Hongkong hid possessed such an association as a Society of East Dr. Wilder's countrymen would say. And Anglians we should have had an Omar the sooner the batter. Khayyam dinner on Wednesday, in celebration of the centenary of Edward is the quatrain ...

A book of versus underneath the bought 'A jug of wine, a loaf of bread-and thou, Beside me singing in the wilderness. Oh, wildernoss were Paradise enow

How often has it not been quoted and parodied during the last quarter of a century, yet old Omar was a man of might in the days when William the Conqueror was turning Ingland into an apparage of Normandy. But we don't quote William's choice morsels of satire and camp-fire wit nowadays, do wel Again it proves that the pen is mightier than the sword, for, in the words of Bulwer Lytton, "where is now the Norman?" As for Omar his philosophy is still going strong and flourishes smazingly.

Omar delighted in the good things of this life, and he loved to lose his fingers in the transes of "the cypress-slander Minister of Wine," but all the same he was no de Hvensong (5.45 p.m.) bauchos. No wine befuddled brain gave expression to such thoughts as these-

Myself when young did eagerly frequent Doctor and saint, and heard great argument About it and about, but evermore Canno out by the same door wherein I went With them the seed of wisdom did I sow, And with my own hand wrought to make

"I came like water, and like wind I go." Into this universe, and why not knowing, Nor whence, like water, willy-nilly flowing; And out of it, as wind along the waste, I know not wither, willy-nilly blowing.

Fitzgerald who, in translating, loved "to take great liberties with the old Persians," was a man after i mar's heart, I should imagine. He used to frequent quiet country inns where he could enter into argument with chance travellers ; he | Easter Monday :- Picnic 2 p.m. loved to "draw out" sailors and fisherlugger was "Paradise enow" for him. He and Thackersy and Tennyson were great cronies in early manhood and in their college days passed many a pleasant hour | Meroing Prayer 11 a.m. together in boon companiouship with glass | Venite; Lee: Psalms, Monk etc.; Te and song. They were not ashamed of their pipes nor of the nut-brown ale of old England, in moderation. Many a good | Holy Communion 12.15. story still lingers among the old- Evening Prayer 6.30. [ashioned villages where they loved at | Gloria, Magnificat, Crotch; Nune Ditimes to foregather. Browning was a man also very much like unto them. Do you remember that story of him claimed the elder Browning in dismay, to bring friends ashere to the services often employed, and for navigable canals I 5.15 and 6 p.m. (Kowleon Police Pier admit it to be indispensable; but for drink- 10.30 and 6), returning afterwards. All ing, Robert, God never intended it !"

Which reminds me of a little incident that occurred in the Isle of Wight many N.B.-A Bible Class is held at the Wanyears ago. Irving was visiting the Poet Laureato, andafter dinner Tennyson asked the actor if he would like a glass of port. When Irving confessed that he would, Tennyson poured him out one glass and absent-mindedly drank the rest of the bottle himself. On Irving's next visit Tennyson was, not unnaturally, suffering from gout, and was restricted by his doctor to a single glass of his favourite wine, while Evening Service at 6 p.m. by the Bev. Irving, having now his innings, finished the . A. D. Stewart. bottle. As Irving had to go away early | Services on Sundays :the next morning, he took his leave over. Hely Communion at noon on 1st, 3rd and night of his host and was surprised, on awaking, to find - Tonnyson sitting at the foot of the bed. "Irving, how are you this morning?" he asked anxiously. "Very well indeed," replied his guest. "Are you !" came the re- Children's Service :- at 3 p.m on 3rd Sunsponse, with just a tinge of doubt in his

I observe from an American newspaper that a Bill has come before the Texas Hely Communion :- 8 a.m. Legislature making it a crime to swear over the telephone. Lets hope the Hongkong Government won't follow suit. If so we should soon be branded as an island of German Service at 11 a.m. Pastor Johancriminals I'm afraid!

If there are any bachelors in Hongkong who consider themselves authorities as to the value of a kiss, they should read the Bunday services :- 10.15 s.m. Preacher following item of news from a Baltimore nowspaper with interest :- "A Chicago judge has placed the value of stolen kisses at \$10 each. They must have been very inferior kisses. Now, in Baltimore, where the kisses are the swedest, snatched from full, rips lips that are warm with the red of the ruby "-The newspaper goes on in this way for while and finally estimates that the Baltimore variety are worth \$12 apiece. Not to be beaten, a New York journal joins in the discussion, saying :- "Now, in New York, where roses bloom gloriously on damask cheeks and Cupid shapes his bow from the lips of our maidens-well, never mind about that. The kisses are \$20 apiece and are bargains at that." Now then, you Horgkong specialists, what's the value of a stolen kiss in a British Crown Colony ? Speak up !

The unhappy and discontented beings now popularly known as Suffragettes truly have to put up with a let of sneering and ridicule. But the latest "take-off" I've read concerning them is distinctly good. I'll give it just in the same terms as s came under my notice :-

Tho following is a popular recipe for a Cabinet pudding :- Take a fresh young Suffragette, add a large idea of her own importance and as much sauce as you like; allow to stand on a Cabinet Minister's doorstep until at a white heat. Mir freelywith one or two policemen, well roll in the mud, and while hot run into a police court and allow to simmer. Garnish with a sense of martyrdom. Popular dish, always in season. Cost - A little self respect.

I am glad to learn from the Colonial Scoretary that the Colony is not so beastly hard-up as we all imagined it to be. A little trifing bill of eleven thousand dollars compensate the owners of opium divane which have been summarily closed we can easily settle out of our own pockets without troubling the Home Anthorities about their promise of compersions us. But then the average Irishman is aways a Levish indifferent individual when money is concerned.

To war delightful to watch the Buffe at Mair regimental sports the other day. How been every one was and what good sport mented I wish other bodies of men in the Colony would be intented by he same

SUFFERED 23 YEARS

"I suffered for years from psoriash effecting the outer sides of the calves of both limbs, contracted in the West Indies in '82 ing on H. M. Northampton as sick berth steward. In that use of nearly all the preparations the Pharmacopæia prescribes, but of the disease I did

not consult any

but treated my-

self with preparations of mercury and sarsaparilla for about nine months, but the eruption continued for years, and eventually left a scaly surface surrounding both limbs. In 1905 I tried -s Remedies which seemed to remove the eruption, but at the beginning of the present year an eczematous cruption appeared, then seeing a Cuticura advertisement, I decided to give a trial to the Cuticura Remedies, of which I needed but five supplies. After the first week I found great relief and I have been quite free from any kritation since, although I continued thetreatment forten weeks in all. There is only a faint discoloration left, and I consider that Cutleura Remedies have done more towards curing the troublesome discase of which I suffered so long than all the other remedies put together and I recommend them to all my friends. I conclude with wishing Cuticura great success. Henry Campbell, Naval Pensioner, J. Grove Road,
